In an editorial about concealed eadly weapons, the Frankfort Yeo man has this to say :

"It has sometimes occurred to us hat a better plan would be to abolish all laws against carrying concealed weapons, and give more attention to the enforcement of penalties for using them unlawfully. If it was generally understood that every man was armed and able to detend him-self, it might have the effect to put an end to homleide, and bring us back to decency and order."

It is rather a bold position to take, but there is no question that such a law would be lo the interests of the better class of citizens who do not like to violate the law. The roughs are not deterred or restrained by the law and good citizens frequently lose their lives because they have no weapon of defense when attacked by assassins.

1883 has witnessed the greatest improvements in Sewing Machines since their introduction, therefore it is to your interest to examine, see and get the best and latest Improved Muchines. To that fact I invite you to end at my office and see the Machines I have or write me a card and I will send one for office and see the Machines I have or write me a card and I will send one for your inspection. I am a first-class machinist, having served a regular apprenticeship at the Sewing Machine fectory and fitted up a shop in Hopkinsville with all the tools necessary to repair all kinds of Sewing Machines, I can do the best of work and guarantee satisfaction. I am an expert in everything related to the Sewing Machine and if you have any work to be done in that line it will be to your interest to bring it to my shop. Besides being a thorough adjuster myself I have in my employ one of the best adjusters in the State of Kentucky. A full supply of Parts, Attachments, Oils, Ele., always on hand. In buying a Machine from me you are not investing in an uncertainty, for if the Machines, needs any attention you can ons, Ele, aways on hard. In onying a Machine from the you are not investing in an inacertainty, for if the Machines needs any attention you can write me or leave word at my shop and it will be attended at once. I have several patents of my own "get np" which I put on all the Machines I sell, and if you wish to buy a machine all I ask is for you to examine my Machines at my office or at your house. Having my own teams and traveling all the time it will be no trouble for me to bring you one and show you what it will do and then you can be your even index. what it will do, and then you can be your own judge.
